

CHILDREN'S PROGRAM COORDINATOR

Community Mental Health Affiliates is seeking a dynamic and creative licensed Doctoral or Master's level clinician to oversee our active and developing child and adolescent outpatient programs in New Britain. Responsibilities include the daily supervision of our energetic team of multidisciplinary providers, interns and support staff, interfacing with local schools, social service and community providers and adhering to the requirements of regulatory bodies such as DPH, DCF and JCAHO. The coordinator will also carry a small caseload, development of evidenced base service modules and help agency and staff continue its implementation of strengths based, recovery oriented and empirically supported treatment interventions. Must be willing to work a flexible schedule. Min. of 3 years supervisory experience working with children and adolescents in an outpatient or intensive treatment setting.
